

## MAURO DOSSENA

### PERSONAL DETAILS

Full name: **Mauro Dossena**

Nationality: Italian (born in Milan, Italy)

DOB: 19:08:71

Address: **via Amatore Sciesa, 6 – 20063 Cernusco sul Naviglio (MI)**

Mob.: **(+39) 346 3046069**

E-Mail: [mauro.dossena@mavedox.eu](mailto:mauro.dossena@mavedox.eu)

### PROFILE

- My career has led me to specialize increasingly in the management of complex Microsoft Dynamics NAV projects and their staffs. I have experience in: developing a NAV solution operating within the tight financial disciplines imposed by the customers' budgets. As a consultant, I operate on the financial, manufacturing, trade & logistic and development areas.

### Skills Base

- Knowledge of NAV C/SIDE : I used the product starting with version 2.0 in early 2000.
- Proven leadership and human management skills
- Languages: English and written German.
- Certifications:
  - Microsoft Dynamics NAV 5.0 C/SIDE Introduction – MB7-514
  - Navision 4.0 Financials - MB7-225
- Academic background: I graduated in Applied Physics at “Università degli Studi di Milano” with a 103/110 score. My scientific interests were in the mathematical prediction of environmental pollution events, with a keen eye to the relationship between pollution and meteorological parameters.

### PROFESSIONAL CAREER:

#### **Freelance Microsoft Dynamics NAV Consultant March 2007 - Present**

*I worked in association with the following Microsoft Partners:*

- EOS Software: development and consultancy in the financial area for **Randstad Italia S.p.A.**, which has a highly customized NAV 3.7 implementation with about 120 users.
- Microsys S.r.l. Presales activities and project management of the **Amut S.p.A** implementation project. This is a NAV 5.1 - 50 users installation with order-based manufacturing. Other projects I have been involved into are **Pentel Italia S.p.A.**, subsidiary of the Japanese company, and **Centrufficio Loreto**.
- Euris Progetti: presales activities the lead to the implementation of NAV 5.0 in **ITW Welding Products Italy**, company of the Miller Group with HQ in Chicago, Illinois.
- MHTL Line: development of stand-alone customizations for several customers: **MareBlu**, **Riso Scotti**, **MiMeAf**, **ADM**, **TLX**, **Soitra**.

*Freelance services for Forgiatura San Giorgio S.p.A, Netystem.Com and Automotive Solutions*

### **Senior Consultant and Project Manager for Brain Force S.p.A. (2000-2007)**

- **Automotive Solutions S.p.A.** Project Management and consultancy: a complex integration project with NAV 4.1 at the core and several web-based applications.
- **NAAR:** Presales activity and earlier analysis.
- **Candy-Hoover:** as Project manager I followed the implementation at the danish subsidiary in Copenhagen. As a consultant i helped Candy to implement NAV in Germany and Denmark, together with the danish partner Dansk SystemPartner and the german partner GOB.
- **Interacciai:** development of the master database to be implemented in France by the french partner 3LI.
- **Radici Novacips:** Consultancy both in the trade and logistic area and in the development area for the Spanish branch Radici Iberica, based in Barcelona. I worked in cooperation with the spanish partner Cadia Consulting from Madrid to the implementation of NAV 3.6
- **Burgmann:** in the earlier steps of the project, I developed the implementation of the 2.6 W1 master database developed by the german partner Wilhelm + Zeller AG.
- **Habasis Italiana S.p.A:** development of the integration between NAV 3.6 and an italian AS-400 accounting software, used during the first step of the implementation process.
- **Nacanco:** project management and consultancy: i lead the team to the implementation of NAV 4.0 in only three months. Activating accountancy, warehouse, sales and a complex interface with an internal software used to manage rental services of elevators, Nacanco was able to deliver reporting required by the spanish headquarters in Barcelona only ten days after go-live.

### **Senior Developer for Deloitte and Touche Management Solutions (2002).**

- The unfortunately short experience was terminated after Microsoft, which was audited by DTT, bought Navision; the event got DTT into a conflict of interest that lead to the dismissal of the NAV group. My experience in DTT has proven nonetheless useful due to the implementation of NAV 2.6 in **Hays - Sodibelco**, a major logistic company, which was particularly difficult because of several integrations with different internally-developed softwares.

### **Developer for Italconsulta, a company of the Datasys Network. (1999-2000)**

- During this first experience I learned how to develop AS400 applications written in RPG III and RPG ILE; the company implemented T.I.M. In textile companies of the northern Italy. Major projects have been Loropiana, Albisetti, Isa Seta.

### **CULTURAL INTERESTS AND PHYSICAL RECREATION**

- Egyptology and ancient Middle-east history, English Literature of the Elizabethan era. Chess, Aquascaping, Working-out, running and swimming.
